ELECTRICITY INSTALLATIONS

Electrical switchboxes

The Exhibition Centre will provide electricity throughout the duration of the exhibition to any exhibitor whose order arrives within the time indicated on the sales order.

Nature of current

- 50Hz alternating, for any power and light-related uses
- 230V single phase between phase and neutral + earth
- 3 X 400V three-phase between phases + neutral + earth

Direct or alternating current may not be distributed at any other voltage or frequency.

2 types of power supply are available:

1/ Exhibition hours electrical network

Power supply provided during daily exhibition hours.

2/ Permanent electrical network

24 hours power supply during the whole period of the exhibition. I.e. for equipment such as refrigerators or computers.

Service line and switchboard

Current is fed to each stand through a supply cable, ending to a sealed switchbox fitted with a circuitbreaker and differential switch 30Ma (to ensure people safety) to which the Centre's representatives must have access at any time.

Safety regulations for trade exhibitions specify that a power supply cannot be used for more than one stand.

Location of the switchbox

It will be installed in accordance with the layout dully filled and attached to the order form. If no plan is provided, the switchbox will be installed on the wall nearest to a technical trap. Any change of the location of the switchbox during the set up will be charged at 70,72 € excluding VAT.

The installing of the booth's electrical fittings is not included in the fixed price and remains payable by the exhibitor. This service may be provided by the Exhibition Centre: see the heading ADDITIONAL ELECTRICAL INSTALLATIONS.

Regulations

Decree n° 88 1056 amended by the order of 14 November 1988 governing the protection of workers, obliges you to protect your booth's internal supply system with a differential switch or any other device designed to be triggered by the fault current. The exhibitor remains responsible for any incident resulting from the non application of these regulations.

©Switchbox 3kW/20kW + support size:

Switchbox:

H = 690 mm

L = 300 mm

D = 360 mm

Connection only with P17

The new Facility electrical switchboxes from 3 to 20 kW are equipped with:

- 3 monophased 230V sockets each one providing 16 A given 3 kW per socket
- 1 femelle three-phase 400 V P17 socket

The smart card, introduced into the box, forward all informations of your order.

The switchbox, in order, interacts with you through its screen.

EXHIBITION HOURS ELECTRICITY SUPPLY NETWORK HOURS

8:00 am-8:00 pm: Thursday September 29, 2011

0:00 am-1:00 am: Friday September 30, 2011

8:00 am-0:00 pm: Friday September 30, 2011

9:00 am-8:00 pm: Saturday October 1, 2011

Additional Electrical Installations

Facilities

In addition to connection to the electricity supply, the Exhibition Centre can provide the general electrical installation of your stand:

- Wiring
- Sockets
- Lighting
- Cable caps

Guarantees

All these services comply with warranties which cover the french current regulations.

Our electricians will be on duty throughout the exhibition to maintain these installations.

WATER SUPPLY

Description of the water supply system

Water supply via 15/12mm diameter flexible pipe ending in an anti-pollution valve and a 15/21 external thread stop cock. Water disposal via 32mm internal diameter flexible pipe.

Recommendations

It is prohibited to throw away materials that may block the disposal pipe, or any chemical products or grease, down the sinks. The exhibitor is responsible for the equipment provided and for any damages or injuries caused or suffered owing to incorrect use.

It is vital to specify on ordering whether the equipment connected generates hot water (e.g. steam ovens).

The water supply to the booths will be provided exclusively by the Exhibition Centre's support teams.

The booth's layout with the location of the service line and the stand and hall number must reach us 1 month before the opening of the exhibition (layout plan attached to the order form).

The exhibitor will be billed at € 69,27 excl. VAT for moving water service lines.

Inside Water Supply

Reference	Description	EXCL. VAT / Euro
32000	Water supply only	386,20
32003	Water arrival, drainer + connection	466,34

32013	Setting container	on quotation
32023	Supplement for water supply upstairs	120,77
32209	Pipe protection	39,52

OUTSIDE WATER SUPPLY

A quote will be produced on request of the detailed layout, marked with dimensions.

FOR OTHER SERVICES - PLEASE CONTACT US

TELEPHONE

The Exhibition Centre can offer exhibitors a complete telephone service.

All the lines proposed include a fixed price for telephone service consumption of €67 excl. VAT.

Should this be exceeded a charge will be levied for the additional consumption.

An orientated layout of the booth, marked with dimensions and the location of the telephone connection point must be provided using the layout plan attached to the order form.

The lines will be installed according to the layout provided. In the absence of a layout, the technicians will install your lines in the storage unit, if applicable, close to the electrical unit. The units must remain accessible.

The exhibitor will be billed at €68 excl. VAT if the telephone connection point is moved.

The lines are systematically switched on at 8.00 am 2 days before opening until 8.00pm on the last day of the exhibition.

The exhibitor is responsible for the equipment with which it is provided. It will be billed if any sockets are detached or wires are cut during set up or in the course of the exhibition.

The telephones must be collected from the reception area during opening hours. The telephone set remains property of the exhibitors at the end of the exhibition.

The Exhibition Centre cannot provide after sales services for equipment that it does not own. The equipment put in place by the exhibitor must be CEE approved and the plugs must be compatible with "T" shaped sockets

FOR OTHER SERVICES - PLEASE CONTACT US

OFFICE EQUIPMENTS

To assist you in the organization of your stand, the Exhibition Centre provides you with all type of office equipments:
copy machines and fax machines for rent

Equipments setting up

On receipt of the order, we will plan an appointment with the Exhibitor for equipment delivery: the day before the exhibition opening.

Unless exceptions (upon special agreement), the equipment will be collected on the evening of the last open day of the exhibition. Only our Technician is authorized to take away the equipment from the stand with the Maintenance Certificate as a proof (the Organizer's General Commissariat is not allowed to receive our equipments).

Insurance

Exhibitors are held responsible for the equipment hired during the exhibition. It is strongly recommended to include it in the insurance policy subscribed by the exhibitor for the whole stand and the equipment exhibited.

Do not forget to provide

A space of 30 cm in front of the fax machine to enable the receipt of documents.

1 electrical power supply at less than 1 metre of the apparatus.

Copy Machines for rent for the duration of the exhibition

FOR OTHER SERVICES - PLEASE CONTACT US

COMPUTER SERVICE (Rental for the duration of the exhibition)

To help you to organize your participation in the exhibition, the Exhibition Centre offers a computing and office automation equipment service. The equipment is available for rental for the duration of the exhibition.

Our service includes the delivery, installing and testing of the machines by a technician.

The machines are constantly monitored throughout the exhibition by the Exhibition Centre's technical maintenance teams.

The exhibitor is responsible for the equipment rented throughout the duration of the exhibition. It must be included in the insurance policy taken out by the exhibitor for the whole of its booth and the equipment rented.

N.B.

On receipt of the order, an appointment will be organised with the Exhibitor to enable personal delivery of the equipment. The computer equipment will be recovered to 17:15 the last day of the exhibition.

Order the data-processing services at the same time as electricity, telephone, water: please, flag cables outgoing on the oriented layout marked with dimensions in order to be realized before the set up of floors and carpet.

Any request to move cable outlets during set up will be billed at the fixed amount of €68 excl. VAT.

SOUND & AUDIOVISUAL

Facilities

Viparis Nord Villepinte provides you with a large range of audiovisual and sound equipments for rent:

- Monitors and video player (VCR or DVD) enabling simple video systems
- Plasma screens : video and computer use
- Static or dynamic video walls
- Sound system 120 watts (suitable for restricted areas)
- Paging system (for larger areas): to page individuals or to provide background music (with Organizer's agreement)
- Videoprojectors on demand

Equipments setting up

On receipt of the order, we will plan an appointment with the Exhibitor for the equipment delivery and signature of the receipt..

Maintenance

This equipment is covered by a maintenance contract with a telephone help line for the whole duration of the exhibition: please dial the 13.

Insurance

Theft and damage in charge of the hirer: exhibitors are held responsible for the equipment hired during the exhibition. It is strongly recommended to include it in the insurance policy subscribed by the exhibitor for the whole stand and the equipment exhibited (according to the replacement value mentioned with price list).

Recommendations

- > Do not forget to provide the plasma screens with the right support:
 - on frame supports,
 - slings on quotation,
 - on adjustable brackets for hanging structure (maximum 3,5 m),
 - on wall brackets (to confirm at order) only to be hanged on a wall 19 mm thick.
- > Please, attached the layout plan and area perspective with dimensions on (if technical floor, precise linea meter cabling).

PARKING

Exhibitor

The Exhibition Centre provides exhibitors with parking spaces.

Upon receipt of applications for parking spaces reservation and the corresponding payment, the Exhibitor Service Department will forward entry permits and magnetic cards by post.

For orders received within a period of 8 days prior to the opening of exhibitions, parking spaces will not be sent but displayed at the Exhibitors Service Department, before the opening of the show.

Parking permits may only be used for private cars, H. maxi 1,90 m, without trailer.

During setting up and dismantling periods, access to the parking spaces is free and not restricted, the exhibitor entrance is gate M. From the exhibition opening, exhibitors will access into gate L1.

Visitor

REGULATIONS

Acces and traffic flow

The Highway Code must be observed within the Exhibition Centre grounds.

The speed limit is 20 km (12 miles) an hour.

Only authorized vehicles on business related to the Exhibition Centre may be driven and parked within the Exhibition Centre grounds. The security team reserves the right to call the law enforcement authorities to report, prohibit and penalize unauthorized access and/or parking.

The driving and parking of vehicles within the Exhibition Centre grounds is the responsibility and at the risk of the vehicle's owner.

It is prohibited to repair and clean vehicles in the car parks and traffic lanes. A breakdown service must be called through the Exhibition Center.

The introduction and transportation of dangerous, toxic or inflammable materials or any explosive or radioactive substances are prohibited within the Exhibition Centre grounds unless an express exemption is issued by Exhibition Center.

Parking

Parking is prohibited in traffic lanes, in the vicinity of the halls and in emergency service access lanes.

Only private vehicles with authorized access will have the right to park in the exhibitor car parks.

Trucks for dismantling cannot access the site until the exhibition is closed and at the times set by the organizer.

Prior to dismantling, trucks may be parked in car park PL, which is reserved for this purpose.

THE FEES COLLECTED ARE FOR PARKING ONLY AND NOT FOR SECURITY

GENERAL AND SPECIFIC TERMS AND CONDITIONS OF SALE AND LEASING

Preamble

For the purposes of these articles,

>> the word «COMPANY» is used equally to refer to any of the following:

- Viparis Porte de Versailles
(listed in the Paris Trade and Companies Register under number 612 016 212),
- Viparis Nord Villepinte
(listed in the Paris Trade and Companies Register under number 321 255 069),
- Viparis Le Bourget
(listed in the Paris Trade and Companies Register under number 448 307 363),
- Viparis Le Palais des Congrès de Paris
(listed in the Paris Trade and Companies Register under number 712 045 491),
- Viparis Le Palais des Congrès d'Issy
(listed in the Paris Trade and Companies Register under number 343 183 695),
- Viparis Palais des Congrès de Versailles
(listed in the Paris Trade and Companies Register under number 439 582 107)
or
- VIPARIS
(listed in the Paris Trade and Companies Register under number 394 321 046);

as identified on the order form as the recipient of this order;

>> the word «CLIENT» is used equally to refer to the exhibitor or any other person or organisation that has been duly appointed to act on its behalf, who has taken the order which is the subject of this contract;

>> the word «SITE» is used equally to refer to any of the following sites:

- Paris Expo – Porte de Versailles,
- Paris Nord Villepinte,
- Paris Le Bourget,
- Le Palais des Congrès de Paris,
- Le Palais des Congrès d'Issy,
- Palais des Congrès de Versailles,
- Espace Champperret,
- Espace Grande Arche,
- Carrousel du Louvre or
- Cnit Paris La Défense;

as identified on the order form as the site hosting the event which has given rise to this order.

I. - GENERAL TERMS OF SALE AND LEASING

These General Terms of Sale and Leasing shall apply to any order placed by the CLIENT, for services offered by the COMPANY.

The CLIENT declares and acknowledges that placing an order constitutes its explicit acceptance of these General and Special Terms of Sale and Leasing, which shall prevail over all other provisions, particularly the CLIENT's general terms of purchase.

It is specified that in the event of an order being placed by a representative acting on behalf of the exhibitor, the aforementioned representative undertakes to comply with these General and Specific Terms of Sale and Leasing and ensures that they are complied with by its principal.

Article 1: Order

All orders must be submitted:

- using the electronic purchase order which can be accessed on-line via the ordering portal at www.viparis.com/epex,
- or directly on-site through the Exhibitor Office teams (paper purchase order or order console).

Orders may not be submitted via any other means.

The CLIENT undertakes to submit orders before the deadline for submitting orders as indicated on the ordering portal of the above-mentioned website. Otherwise, the order will be considered late and shall be subject to additional fees, provided it is still possible for the service to be rendered.

Orders will only be considered valid if they include:

- payment or evidence of payment (in the case of on-line payment or bank transfer) of the total amount due (including any additional fees for orders submitted late) and,
- a plan, duly completed, indicating whereabouts the various services are to be rendered.

For all orders placed and paid for on-line, their acceptance by the COMPANY shall be confirmed by an e-mail confirming the technical feasibility of the order.

Orders placed on site will only be considered to have been accepted by the COMPANY if the latter does not express any reservations and does not refuse the order when it is placed.

In the absence of payment, and subject to the provisions in the previous paragraph, the COMPANY reserves the right not to render the requested service. The CLIENT shall bear sole responsibility for any consequences that may result from late payment.

Any modification to an order that was previously placed by the COMPANY will be invoiced at current rates as stated on the purchase order.

Any order cancellations must be sent to the COMPANY in writing (signed fax or e-mail) no later than 10 (ten) calendar days before the date of entry onto the premises, except for orders placed on-site and those related to parking spaces, which cannot be cancelled. Any cancellation made after this deadline shall be subject to invoicing for the full amount of the service.

Article 2: Order fulfilment

2.1 Sale of services

Orders shall be fulfilled on the basis of the information provided by the CLIENT on

the purchase order and the plan sent with it, provided this information is in compliance with prevailing regulations.

The COMPANY reserves the right not to render the services according to the terms requested by the CLIENT if these terms do not comply with current regulations.

In this case, the COMPANY shall inform the CLIENT and the order shall be suspended until additional information is received and the CLIENT accepts the necessary modifications.

Furthermore, if at the time of a previous order the CLIENT did not fulfil one of its obligations (submitted a late payment, for example), the COMPANY may refuse to sell unless the CLIENT provides sufficient financial guarantees or cash payment. No discount for cash or early payment shall be granted.

2.2 Leasing of equipment and furniture

Except where expressly stated to the contrary, the fulfilment of an order specifically includes the leased item's delivery to, installation at and return from the exhibitor's stand.

As applicable, at the time of delivery and return, both parties shall complete delivery and return forms.

Unless a claim is recorded on the delivery form or submitted by mail, e-mail, or fax within 48 hours, the item shall be considered in good overall condition and accepted as meeting the specifications of the order; it must be returned in the same condition at the end of the lease period.

Computer and telecommunications equipment shall be returned with all peripherals (remote controls, cables, original packaging, etc.) and with all of the documentation initially provided, in whatever format it came in (manuals, software disks, etc.).

Due to limitations related to inventory availability or time constraints, the COMPANY explicitly reserves the right to provide, in place of a given item ordered, any equivalent item that meets the CLIENT's needs in exactly the same way. Unless the CLIENT completely or partially refuses the replacement item at the time of its delivery and installation, the CLIENT shall be deemed to have accepted it and the obligations that go with it.

Unless explicitly agreed with the COMPANY beforehand, the leased property may not be modified or transformed in any way.

The CLIENT explicitly agrees to use the leased item as it is intended to be used, not to do anything or allow anything to be done that would cause damage or loss, to maintain it as would normally be required and to comply with all of the specific recommendations and usage guidelines that the COMPANY provides, especially at the time of delivery. In the event of a fault occurring for which the CLIENT may not be held responsible, the COMPANY shall make every effort to fix any breakage or technical problems that occur to the leased item. If the damage is found to be the fault of the CLIENT, the COMPANY shall invoice the CLIENT for the cost of its repair.

2.3. The fulfilment of or access to all or part of a service provided by the COMPANY depends on its technical feasibility and/or the available inventory.

2.4. It is specified that in order to render all or part of the services to which these general terms apply, the COMPANY shall work with specialised firms, and the CLIENT states that it has acknowledged and accepted this fact.

Article 3: Price - Invoicing - Payment

The applicable sale or lease price is the price shown on the purchase order. An itemised breakdown of this price is shown on the purchase order on a case-by-case basis.

Products and services for which the price is not indicated on the purchase order shall be calculated and quoted for on request.

All prices indicated on price lists issued by the COMPANY are pre-tax and exclusive of VAT, which shall be applied at the current rate, in accordance with the legal and regulatory provisions applicable to the service.

With the exception of orders placed relating to spaces in the car park, all orders taken on site and/or received after the deadline as stated on the on-line ordering portal will automatically have the additional fees as indicated on the aforementioned portal added to them.

Payment for all services is due in full when the order is placed.

In situations where services are billed on a supplemental invoice, this invoice must be paid within 5 (five) calendar days of its receipt.

All outstanding sums that have not been paid by their deadline shall automatically accrue interest at a rate of 3 (three) times the current legal interest rate on the date payment was due.

Article 4: Liability - Insurance

The Client is responsible for looking after the duly accepted item with effect from its delivery until it is returned, pursuant to the provisions of article 1384 et seq of the French Civil Code. Consequently, the CLIENT shall be responsible for any damage or loss occurring to said item for the entire duration of its lease period, until its return is confirmed, as applicable, by signatures from both parties on the above-mentioned return form.

In the event of the leased item being lost or damaged, the CLIENT shall be liable for the cost of repairing or replacing said item with a new item as of the date the damage occurred, as well as for any resulting intangible loss, particularly relating to the item's unavailability.

As a result, the CLIENT must purchase, from companies licensed to provide insurance coverage in France, (i) an all-risks policy covering the leased items, particularly for the risk of theft, fire, explosion, water damage, and machine breakdown, and (ii) a policy covering the financial consequences of the civil liability it may incur due to bodily injury, property damage and direct and indirect losses incurred by a third party, including the COMPANY, through the use of the leased items. The CLIENT must be able to provide proof of insurance at any time, upon first request from the COMPANY.

If the COMPANY is held responsible for failing to fulfil all or part of an order, its responsibility shall be limited to the amount of the relevant services, to the exclusion of any other damages, a right to claim which the CLIENT explicitly waives.

All delivered items remain the exclusive property of the COMPANY and/or its partners.

Article 5: Force majeure

The COMPANY shall not be held responsible or be considered at fault for any delay or failure to render services resulting from a case of force majeure, as usually defined by French jurisprudence.

Article 6: Tolerance - Modifications

Any tolerance demonstrated by the COMPANY concerning the CLIENT's failure to comply with any of these General and Special Terms of Sale and Leasing completely or properly shall under no circumstances give rise to any right on the part of the CLIENT, nor shall it modify the nature, scope or execution of the CLIENT's obligations in any way, regardless of the duration of the failure.

Article 7: Complaints

Complaints pertaining to the rendering of services must be presented in writing to the director of the COMPANY before the event closes to the public, so that the claims can be noted and taken into account. No complaints shall be considered valid and accepted after this date.

Article 8: Address for correspondence - Applicable law

The parties shall use their respective headquarters as their addresses for correspondence.

By explicit agreement between the parties, any contract arising out of a duly accepted order is subject to French law.

For the sake of convenience, an English translation of these General Conditions of Sale and Leasing has been provided. However, in the event of a legal dispute, only the French version shall be accepted.

The parties shall attempt to settle amicably and promptly any dispute that may arise between them with respect to the validity, interpretation, execution or termination of this contract. Any dispute that the parties have failed to settle in this way shall fall under the exclusive jurisdiction of the Paris courts.

II - SPECIAL CONDITIONS OF SALE AND LEASING

Article 9: Definition of a stand

«Exhibition stands» refers to spaces on a single site separated by dividing walls of a certain height that prevent free movement between the spaces, the latter being accessible via aisles. These spaces are occupied by legally distinct company names or brands.

Article 10: Work carried out on the SITE's distribution networks (electricity, water, compressed air) and facilities

For safety reasons, only persons appointed by the COMPANY are authorised to carry out operations on the SITE's electricity, water and compressed air networks.

Similarly, only persons appointed by the COMPANY are authorised to carry out operations on the SITE's infrastructure (crawl spaces, gutters, roofing, outside areas, communications lines and cables etc.).

As such, the following are not authorised:

- any drilling to attach machines or to stabilise or brace equipment on the flooring, paving, terraces or any other parts of the building;
- any gluing or adhesion of materials to the flooring, paving or other parts of the building;
- any work on or modification to any structures;

In the event of any failure to comply with these guidelines, the COMPANY reserves the right to cut off the supply of power, water and/or compressed air and/or to take down any unauthorised or non-compliant installations immediately, with the CLIENT being liable for all the costs and any harmful consequences arising to its installation, without recourse against the COMPANY.

10.1: Electricity

Each power line may supply only one stand (fire safety standards).

The switch boxes and electricity cabinets are each fitted with a 300mA differential switch and fuses that are appropriate for the given amperage. In the event of a surge in current, the protective mechanisms cut the power. Switch boxes with outlets are fitted with a 30 mA circuit breaker. For safety reasons (protection of individuals), the outlets provided by the COMPANY are fitted with 30mA protection for a circuit with a maximum of 8 outlets. For more than 8 outlets, a second 30mA protection system must be installed.

Only personnel appointed by the COMPANY have the right to open the switch boxes and electricity cabinets, which, for safety reasons, must be accessible at all times to personnel appointed by the COMPANY while remaining off-limits to the public. The power supply is not guaranteed against mini-outages.

It is specified that, in the event of a power outage, the CLIENT is not authorised by the COMPANY to use and/or resort to a generator unit.

10.2: Water

A line may only be used to supply a single stand.

If wastewater contains sewage or grease, a sedimentation or grease-removal tank is required. Any filling or emptying of pools or basins is only to be carried out by personnel who have been specifically appointed by the COMPANY for this purpose.

For safety reasons, a connection may only supply two machines spaced less than 3m apart. One line per machine is required for machines further than 3m apart. A drainpipe may only be connected up to a single piece of equipment. Any connection made directly by the CLIENT or an authorised third party must comply with regulations regarding connections to the drinking-water supply system, in particular with regard to anti-pollution arrangements (backflow preventers).

10.3: Compressed air

The COMPANY provides compressed air inasmuch as the stand is located near a connection box. A line may only supply one single stand.

For safety reasons:

- the compressed air lines must not be laid across the aisles.
 - a line can only supply two machines that are not more than 3m apart. One line per machine is required for machines further than 3m apart.
 - the lines must be fixed in such a way as to prevent any whipping action should they break.
- Any connection set up directly by the CLIENT or an authorised third party must comply with current regulations, be maintained throughout the duration of the exhibition, and is the responsibility of the CLIENT, who shall bear all costs thereof.

10.4: Slings

Rigging slings may only be set up by personnel appointed by the COMPANY; neither lifting nor hanging is included in the set-up.

Rigging slings are not allowed in some areas.

The CLIENT should refer to the exhibition guidelines with regard to the height and positioning of rigging slings.

10.5: Electronic communications – Internet and networks

Only the COMPANY may run cables through the SITE's facilities. Similarly, only the COMPANY is authorised to attach satellite dishes to the buildings.

For optimum performance, one connection may not supply more than 4 devices. For more than four devices, an additional connection is required.

Article 11: Floor loads

Admissible floor loads vary from area to area. The CLIENT should contact the exhibition organisers, who have all the necessary information.

Article 12: Parking - Loading docks

Important: only the Paris expo Porte de Versailles, Paris Nord Villepinte and Paris Le Bourget sites have car parks on their premises.

Parking spaces at the Paris expo Porte de Versailles, Paris Le Bourget and Paris Nord Villepinte sites will be awarded on the basis of availability.

To facilitate stock management in the interest of everyone, it should be remembered that, once ordered, spaces may not be taken back or refunded.

With regard to parking spaces, it is expressly specified that the COMPANY only

provides the right to a parking space and consequently declines any liability for theft or damage of any kind caused to parked vehicles, as well as for any personal injury or physical damage that might arise during parking.

The French Highway Code (Code de la Route) is applicable on the site premises. The maximum authorised speed is 20 km/hour.

At all sites, any parking, even for short periods, is prohibited outside the dedicated areas marked for this purpose. No stopping is permitted in the lanes reserved for fire engines and emergency vehicles.

In the period during which the exhibition is open to the public, no stopping or storage of any kind is permitted alongside the areas, in particular in the security perimeters marked out alongside the buildings.

For safety reasons, any illegally parked vehicle can be removed without notice by the COMPANY and moved to a reserved place. Removal and storage charges shall then be payable by the offending party before the vehicle may be recovered.

Article 13: Internet access - Wireless network

13.1: Internet access - WiFi service

The Client may access the WiFi service (hereafter referred to as «the Service») in accordance with the terms and conditions laid out in this document. The Client undertakes to use the Service in compliance with these requirements, and to abstain from sending or receiving any message, data, file, content or signal which is in breach of law and order, is unethical - particularly with regard to legislation on press infringements -, or contravenes Internet copyright law, contravenes laws on the protection of minors, professional secrets, private correspondence or private information on the Internet. In the event of these regulations being breached, the COMPANY reserves the right to disconnect the CLIENT immediately, without notice or compensation.

The COMPANY may not under any circumstances be held liable for any messages, data, files, contents or signals sent or received by the CLIENT while it is connected to the Service, of for the illicit nature of any sites or content that it visits, views or uploads, or more generally, for any damage that the CLIENT may suffer or cause as a result of its use of the Service. Consequently, the CLIENT guarantees the COMPANY against any direct or indirect tangible or intangible damage that it or its agents might cause or that third parties might claim due to enjoyment of Internet access.

The CLIENT bears sole responsibility for the working condition of its end-point installation (cabling downstream from the terminal, computer configuration) and the configuration of its computer equipment so as to obtain a service in compliance with the purchase order.

The CLIENT declares that it is aware of the technical specifications and that it knows of the uncertainties with respect to response times, loading, viewing and other operations carried out on the Internet via the Service; the design of the network itself makes it impossible to know the recipient's data throughput rate, the paths via which data is sent, or details about available bandwidth.

The CLIENT also acknowledges that it has been informed of the risks associated with the security and confidentiality of data and content sent and received over the Internet. It assumes sole responsibility for ensuring that its data, content and applications are kept secure and confidential within the context of its use of the Service. Furthermore, any operations carried out via the Service using the username and password allocated to the CLIENT are deemed to have been carried out by the CLIENT.

The CLIENT shall take the necessary precautions in order to ensure that it is in compliance with current regulations regarding encryption and the secrecy of data

exchanges. The CLIENT is solely responsible for implementing the necessary hardware and software-based solutions for protecting its IT system and content against any fraudulent access or computer viruses. The CLIENT recognises that under no circumstances may the COMPANY be held liable for any unauthorised access or computer viruses. The CLIENT is hereby informed that the Service may be disrupted by any pieces of equipment located nearby which generate electromagnetic interference.

In order to provide access to the WiFi service, the COMPANY uses an Electronic Communications Operator which is in compliance with article L.33-1 CPCE on electronic communications devices. As such, the Operator is required to retain all identification and login data in accordance with article 6 of law no. 2004-575 of 21 January 2004 and L.34-1 CPCE of the electronic communications devices code. In compliance with this law, the Operator, or the COMPANY acting on its behalf, is required to collect and retain all technical data as defined by article R.10-13 CPCE, without, however, saving the actual content of the communications in question.

In application of law no. 78-17 of 6 January 1978, the CLIENT is entitled to access, modify, delete or correct any personal data held about it or prevent it being sent to any third parties. The rights regarding this information apply to the COMPANY or to the Electronic Communications Operator which provides the Service. The CLIENT is required to inform all users of the WiFi service provided of the rights they enjoy with respect to any personal data about them.

The CLIENT undertakes to inform any employees, partners, clients, potential clients or visitors who may connect to the Internet using the Service with which the CLIENT is provided of this information and the limitations of use.

13.2: Wireless network

No wireless network (WiFi, WiMax, Edge, etc.) may be set up at the site without the express prior approval of the COMPANY.
